## Work Experience

### ERD Technologies Private Limited

Remote

Web Developer Intern

October 2021 - December 2021

- Created and updated products listing.
- Improved UI and UX experience for the users.
- Fixing bugs and errors.

### Intelloger Corporation

Remote

Front End Developer Intern

September 2021 - October 2021

- Worked on the development of the Business website and created features to enhance the user experience for all screen devices.
- Translated designs and wireframes into a highly responsive user interface and reusable components using React.js, Next.js.
- Used Back-End APIs to display data using the Custom Components, library Components.
- Assured that all user input is validated before submitting to back-end.

## Projects

### Tinder Clone

MongoDB, Express.js, React.js, Node.js, Material UI

MERN Tinder-Clone App

Github

- Developed a Tinder Clone application that you can use to right swipe and left swipe on people cards.
- We are storing each of the cards with image URL and name in our MongoDB No SQL Database.
- We have hosted our app backend on Heroku and Front End on Firebase.
- [tinderclone.com](#)

### Facebook Clone

React.js, Firebase, Node.js, Material UI

Facebook-Clone App

Github

- Developed a Facebook Clone application that you can sign in with your Google Account and send real-time posts.
- We have used Context Api(Redux pattern) to push the login user inside the data layer to use in our components.
- We have hosted our app live on Firebase.
- [facebookclone.com](#)

### Keeper

MongoDB, Express.js, React.js, Node.js

MERN TODO-APP

Github

- Designed a ToDo-App, where user can add a new note, read the notes, and delete a note, technologies used like MongoDB, Express.js, React.js, Node.js, CSS.
- We are storing each new note enter by the user in our MongoDB No SQL Database.
- We have hosted our app on Heroku.
